
THE AMAZING AUTUMN ADVENTURES OF FRED BEAR - CORONAVIRUS SPECIAL

What an eventful year so far for our intrepid traveler! Whilst enjoying the Asian hospitality in the “land of smiles”, the lockdown was announced due to the outbreak of Covid 19 and the worldwide pandemic. It was touch and go if he would get back to the UK or have to stay in Thailand for the foreseeable future.

Whilst others were ordered back to their home countries immediately and flight prices attracted a premium. I'm pleased to report Fred managed to get back at the end of March and duly served his 14 day quarantine period in the comfort of our Secretaries back garden. (Paws...A Local family bubble!)

The only casualty during the lockdown phase has been the recycling operate from the local council who damaged his back disposing of the of empty bottles from the property!

Despite these unprecedented times we find ourselves in, Fred is bearing up and remains hopeful... that things will return to some sort of normality eventually and he can continue his “amazing adventures” once more....

Keep safe and well Brethren until we can all meet again and resume our labours.

Remember Fred Bears Life Matters! 🐻
